Comment on remarks of the Dewan with President alg the Board Mysore

A general order might be issued

for the Municipal Council to call the municipalities in the State that

work is not able to do so and that they must, if unable

to provide funds for necessary expenditure go

open market with the security of

work. If such an order had been

issued it would have saved

all this confusion - and it

is also necessary that after the

issue of such order work stopped

by any Municipality in contravention of

policy of refusing such grants.

Has it done so? Does it know

its own mind -? It is this uncertainty which made me some

what diffident to communicate

the orders at once & suggest this delay.

Regarding the work. Municipal

Council can find funds for demolishing

their houses and carry out the

suspending expenditure on all other

ordinary work -

improvement at once - He
should report what portion
of the loan already sanctioned
was utilized for the purpose
of demolishing the houses, & if
no portion was utilized the Govt
will explain why not. Govt
should report with an abstract statement
of the income & expenditure
the present financial condn of
the Mun., its probability - current
the expenditure required for ~~drainage~~
removing condemned houses &
pari passu sheets, what retrenchments
the present expenditure can admit
of, & what resources there are
for improving the income - This
report must be submitted at
once; & but it needn't delay
the taking on hand of this de
-molishing work which must be
started forthwith.
